

## With Reliable Partners You Can Achieve Anything!

Prestoplan Ltd sponsored Mark Starling of Kier who took part in a unique expedition to the magnetic north pole to raise money for the COINS Foundation. The money raised will help build fifty homes in Africa that in turn will provide shelter and a place to live for as many as 300 people within a community

Mark's team were the first all British 12 person team to walk to the magnetic north pole completely unsupported. They covered 350 nautical miles, a punishing regime averaging 15 miles per day across the ice, pulling all their own supplies in sledges behind them at temperatures as low as - 50°C.
